Federal Communications Commission
Washington, D.C. 20554

DATE: October 19, 2021

TO: Aashiq Ahamed

FROM: Andrea Simpson, Chief Information Security Officer, Information Technology

SUBJECT: Federal Communications Commission Acknowledgement Letter for Participating in
               the FCC Vulnerability Disclosure Program

Dear Aashiq Ahamed,

The Federal Communications Commission (FCC) is formally acknowledging the receipt of the
Vulnerability Disclosure Report (Last 8 *87b53307) you submitted for our web application,
https://ecfsapi-prototype.fcc.gov/filings/. In the report you discovered that the API directory was
publicly displaying user PII. Through your independent research the FCC has been given the
opportunity to harden our environment, review business processes and procedures, and has aided
in preventing the malicious exploitation of this vulnerability.

This acknowledgement letter does not grant permission to publicly disclose the vulnerabilities or
methodology utilized. Please continue to coordinate with the FCC via the BugCrowd platform if
you have any questions or concerns. Any new vulnerability reports can be submitted to the FCC at
https://bugcrowd.com/fcc-vdp.

Thank you for your diligence in helping ensure that FCC information is secure and for taking the
time to participate in our Vulnerability Disclosure Program.

Sincerely,

_____
Andrea Simpson
Chief Information Security Officer (CISO)
Federal Communications Commission
